

Boulder iQ

Intelligence for today's life science products

[Development](#) • [Regulatory and Quality](#) • [Sterilization](#)

As we move through the first quarter of the year, we're continuing to see more and more interest in alternatives to ethylene oxide sterilization, with increased demand for our quick-turn chlorine dioxide service. The need for solid regulatory support and guidance among medical device start-ups is as strong as ever. We've also noted increased interest in the internal audit service we offer.

Want to learn how we may be able to help you accelerate your product development and marketing introduction? [Email Sep Mohseni](#) and we'll set up an introductory meeting.

MD&M West

Speed-to-Market Focus Prevails at MD&M West 2025

By Jeremy Anderson, Director of Business Development

Boulder iQ once again exhibited at the MD&M West show in Anaheim, California, this year. Described as an event where industry professionals can "advance their knowledge, contacts, and progress in the rapidly accelerating world of advanced manufacturing," MD&M lives up to its promises. [Read more.](#)
